

DATA NEEDED FOR THE CALCULATIONS AND THE STUDY OF A EPAMS NETWORK

General

Date :

Local contact (society, name, phone and fax numbers) :

Project :

name

country / city :

Details on the building / the surface (partial surfaces) of the roof

Length : m

Width : m

Height : m

Roof or gutter where are going to be fixed the rainwater head

Nature of the system :

Length : m

Height : m

Lower points of the roof :

Potential locations of the downpipes :
Position of the main sewer(s)
Details on the structure of the roof, the waterproofing (drawings on the roof structure / structure of the gutter)

Material used for the waterproofing :

Slope(s) of the roof :

Other details :

Rainfall intensity en l/s/m² :
Other details

Sound insulation requiered ?

Fire protection requiered ?

Antifreeze protection requiered ?

System to heat the pipework requiered ?

Documentation enclosed to the demand ;

Roof with the surfaces / sections of the buildings, drawings on details, views of the buildings

List N° drawings / CD or e mail (e mail <5Mo) **AUTOCAD version 2000 (drawing DWG)**
